Hon. A. J. Hopkins,

Senate Chamber,

Washington, D. C.

Dear Senator:--

We have been asked to communicate with you in regard to the desirability of having action taken upon House bill No. 16560, known as the "Bonyng", providing a new trade-mark law. Personally, I know little about the provisions of that bill; but I understand that in a general way it is intended to protect the citizens of the United States against manifest injustice which they have been subjected to in the past by reason of lack of protection in connection with our trade-mark and copyright laws.

In our own case this injustice has appealed to us most forcibly. Such damage as has been done to us, and under which we are now laboring, has been by no means small, and I presume that there is no possibility of our Company being able to recover this lost ground; hence in writing you at this time I am largely actuated by interest in my fellow citizens and their, as well as our own, future protection.

To be specific, our Company after years of effort and the investment of large capital has succeeded in building up in this country one of the largest, -if not the largest, -

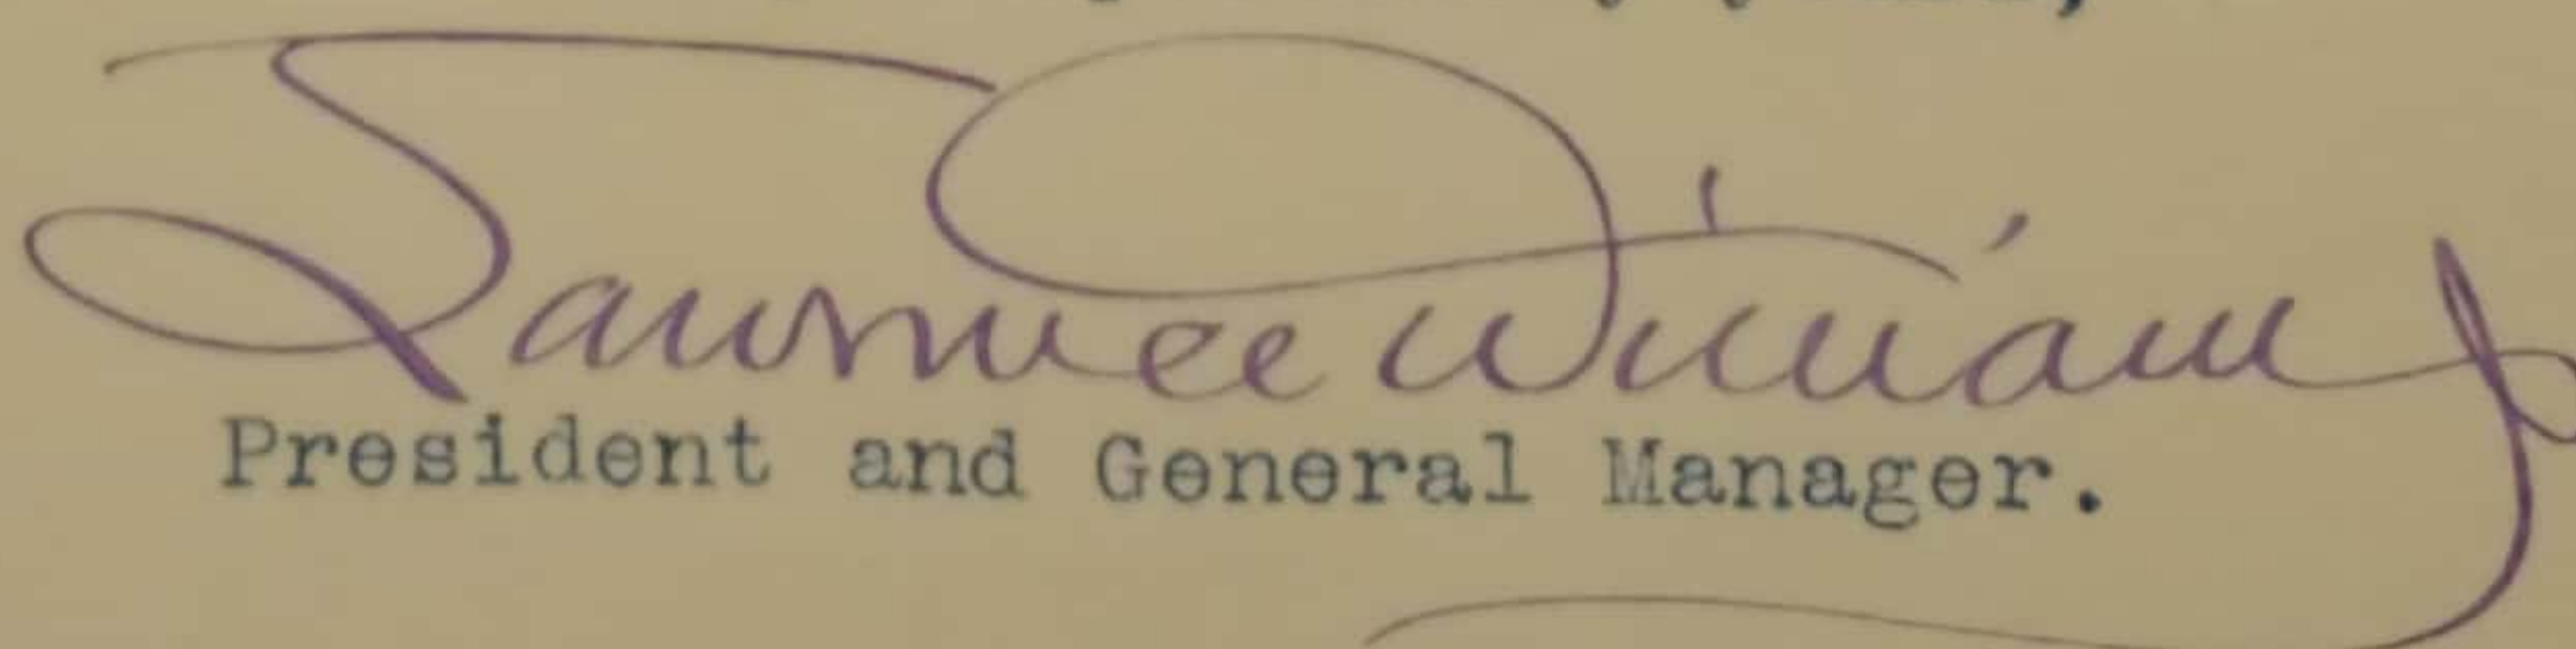

A.J.H.....#2.

industries in the world of its kind and has furnished thereby a livelihood to thousands of individuals and has introduced its manufacture in practically every part of the habitable globe. At one time or another it has attempted to have the name of its product, to-wit: The Oliver typewriter, or The Oliver, or special designs using these words, copyrighted for the purpose of protection, and in each and every case I am informed our solicitation in connection therewith has been declined by reason of our laws governing the subject. Application made in foreign countries for like registration has been declined on the ground that the laws of those countries specify that before a foreigner could register a trade-mark it must be necessary for him to have such trade-mark registered in his own country; hence by reason of our own prohibitory laws in this direction protection abroad has been declined us. But this is not all; the failure of our Government to furnish our Company protection in this direction has enabled others, -foreigners, -to themselves register the Oliver as a trade-mark under their own names in Germany, Holland and other continental countries, in addition to which we are now advised that our product is being copied in one country abroad and we have been notified that there is likelihood of other manufacturers in other European cities following this lead, with the possibility not only of duplicating our machine but of taking our name and consequently our good will.

I do not wish to weary you with further details. I understand that there are many American manufacturers who have suffered, or are suffering, in a like manner; if so, it would seem to me that any move which carried with it the possibility of curing this injustice to our American manufacturers and inventors was worthy of consideration, and I therefore take the liberty of placing these facts before you.

I am, Sir, with assurances of my personal regard,

Very respectfully yours,

President and General Manager.

Dear Sir:--

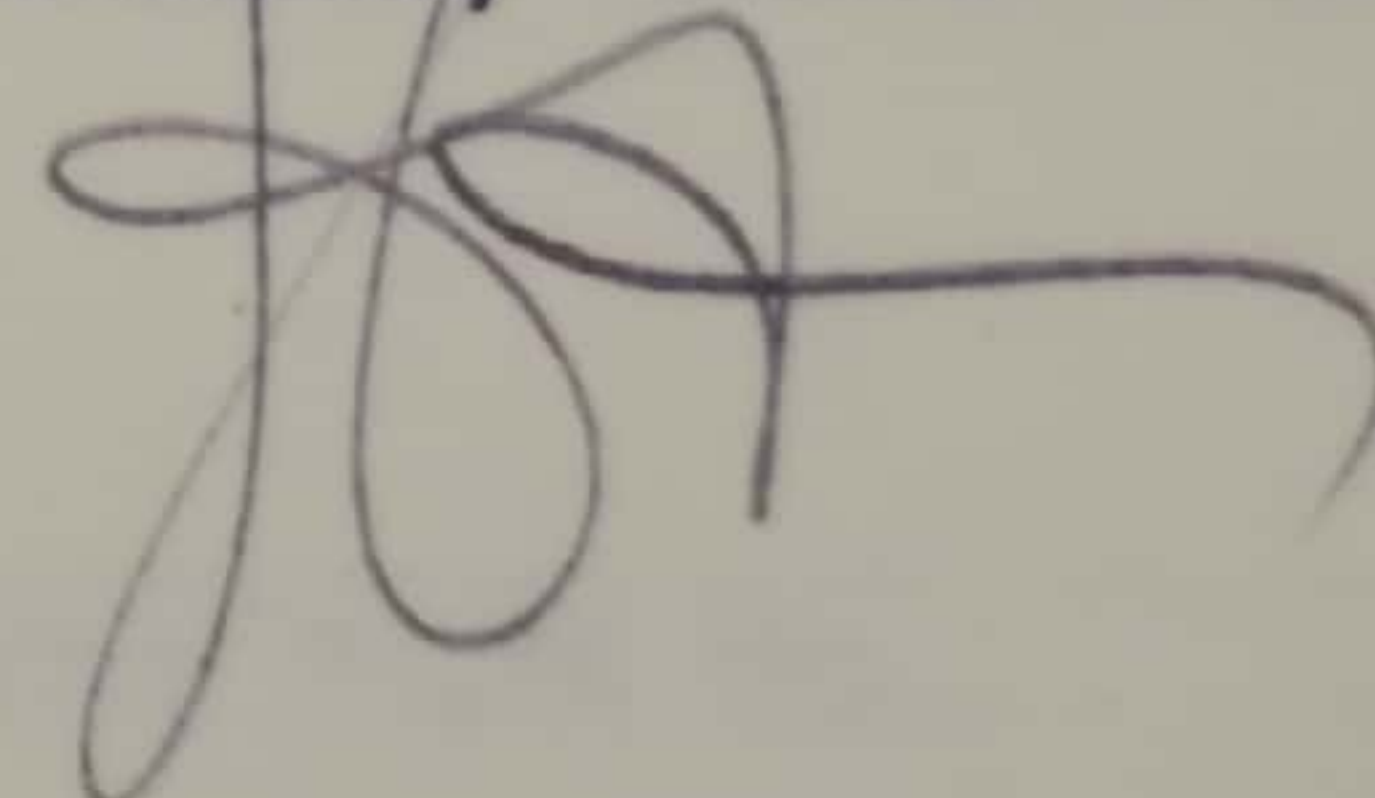

We are requested by the National Association of Manufacturers', of which we are a member, to urge you to support House Bill No. 16560, known as the "Bonyng Bill", providing for a new trade-mark law.

We are not posted on this bill, have not kept up with the matter, but we have the utmost confidence that the National Association would not urge anything which was not necessary, and we would be pleased to have you support the bill, if you can do so.

Very truly yours,

Sir:

We are very deeply interested in House Bill, #16560, known as the "Bonyngge Bill" which provides for a new trade mark law. At the present time we are very badly protected here and abroad as against infringements. Indeed, in some foreign countries, we have no protection whatever. It is very much desired that this Bill should go through without mutilation, and we hope you will see your way clear to favor us and the manufacturing interests in our State by working and voting for this Bill.

Yours most sincerely,

MOLINE PLOW CO.

President.

Hon. Albert J. Hopkins,
Illinois Representative,
Washington, D. C.

Dear Sir,-

Permit us to call your attention to house bill #16560, known as the Bonyne Bill, providing a new trade mark law. This is a bill which we believe to be very important, one which should become a law without amendment in exactly the form it is presented. We believe much care has been taken in drawing it up to make it fair to every interest, and particularly to the honest manufacturer of America.

The only one it hurts is the infringing thief, and it helps him by making it unprofitable for him to steal.

Trusting that your vote will be in behalf of the bill, and that you will strongly support it, we are

Yours truly,

Barnhart Bros. & Spindler

Dear Sir:-

We hope you will give your support to the "Bonyng House Bill" No. 16560, providing for a new trade mark law. We have felt the need of protection such as this gives a manufacturer as we have had pirates in our line abuse the laxness of the present laws governing these matters with the result that an inventor and patentee gets very little protection.

Yours truly,

Cole Manufacturing Company.

Mr. Albert J. Beveridge,

United States Senate,

Washington, D.C

Dear Sir,-

There is an important bill in the House, known as House bill No. 16560, more popularly known as the "Boyngé" bill, providing for a new trade-mark law that is particularly interesting to every manufacturer and tradesman throughout the United States whose products are protected in any way by trade-marks.

A special committee appointed by the National Association of Manufacturers has had this matter in hand for some time, and have been in close touch with the market requirements, as well as the legislative conditions, and I believe that I voice the sentiment of the majority of manufacturers in asking your aid in carrying out this needed reform in trade-mark laws. It is especially desirable that the law be passed at this session of congress, as otherwise the great amount of labor and money that has already been expended will be lost and the matter begun anew.

I feel confident that your support in the matter may be relied upon, having as you do such close identification with the large interests that are effected by this law.

Most cordially yours,

M. W. Mix

Hon. C. W. Fairbanks,

Washington, D. C.

Dear Sir:-

Our attention has been called to Senate Bill No. 3352, introduced by Senator Stewart recently, referring to Trade Marks. This is a matter in which we are interested, and we should judge from the provisions of this bill that it is a very proper piece of legislation.

As we understand it, the principal difference is in Section 9 of the new bill, which provides for the recovery of damages for the unauthorized use of registered trade marks in interstate commerce, as well as foreign or Indian trade; whereas, under the existing laws, there is no provision for protecting interstate commerce. This is a matter of great importance to all parties who have valuable trade marks, as the great bulk of the business is transacted between the states of the Union, and therefore the value of a trade mark is very seriously impaired if the infringement of trade marks in such transactions can not be prevented!

We do not see any serious objection to this bill from any standpoint, and if in your judgement there is nothing objectionable, we would respectfully urge your co-operation in its early passage.

Hon. John F. Dryden,

United States Senate, Washington, D. C.

Dear Sir:-

According to a decision of the Supreme Court of the United States in the case of Warner vs The Searle & Hereth Company in which the Court decided on November 30th 1903, that the protection of a trade-mark was limited by the present law to use in commerce with foreign nations and therefore gives us no protection in interstate commerce, which virtually destroys the law so far as we are concerned.

This is particularly important to us, as our business is entirely dependent upon the protection of our trade-mark. In fact it most seriously jeopardizes the position of anyone advertising a specialty.

There has been introduced in the Senate a Bill #4433, for which I believe Senator Clapp is responsible, House number #13297.

By giving this matter your attention and support, you will oblige,

Yours very truly,

Dear Sir:-

Our attention has been called to Senate Bill No. 3353, introduced by Senator Stewart recently, referring to Trade Marks. This is a matter in which we are interested, and we should judge from the provisions of this bill that it is a very proper piece of legislation.

As we understand it, the principal difference is in Section 9 of the new bill, which provides for the recovery of damages for the unauthorized use of registered trade marks in interstate commerce, as well as foreign or Indian trade; whereas under the existing laws, there is no provision protecting interstate commerce. This is a matter of great importance to all parties having valuable trade marks, as the great bulk of the business is transacted between the states of the Union, and therefore the value of a trade mark is very seriously impaired if the infringement of trade marks in such transactions can not be prevented.

We do not see any serious objection to this bill from any standpoint, and if in your judgement, there is nothing objectionable, we would respectfully urge your co-operation in its early passage.

Yours very truly,

E. C. ATKINS & CO., INC.

Dear Sir:-

H. R. No. 16560, being a Bill to authorize the registration of trade-marks, has been brought to our attention, and we beg to inform you that we are in favor of such legislation, and trust that you will give the same your support whenever it comes before you. In this connection, we would say that, in our judgment, the Bill would be strengthened by adding a provision to provide for punishment of any person who steals a trade-mark.

With best wishes, we are,

Yours respectfully,

Dear sir:-

We understand that there is now before the House the "Bonyng Bill", House Bill No. 16560 which provides for a new trade mark law, and we understand that it will come up very shortly. As this Bill incorporates the result of considerable work and thought on the part of the Patent Committee of the National Association of Manufacturers, and as it corrects a number of weak points in the present law covering trade marks, we would ask you to give the Bill your support if you can.

Yours respectfully,

MONONGAHELA TUBE COMPANY,

Hugh H. Davis
Treasurer & General Manager.

Dear Sir:-

We are writing this for the purpose of soliciting your aid for the passage of House Bill #16,560, known as the "Bonyngue Bill", which we understand will come up shortly for action in the House of Representatives.

We consider the enactment of this bill into law a wise and judicious piece of legislation, and we earnestly request you to do all in your power, should the opportunity present itself, not only to secure the passage of the bill, but its passage in its present form; as we believe the best results are to be attained by the bill as it now stands.

Trusting you will give the matter your attention, we beg to remain,

Very truly,

Hon. P. C. Knox, Senator,

United States Congress,

Washington, D. C.

Dear Sir:-

We are informed that a bill has been introduced in the House providing a New Trade Mark Law, Bill No. 16,560, known as the "Bonyngge Bill"

While we have not read this through, we are informed that it is for the protection of American Manufacturers from the keeping and infringeing of their labels, and enabling them to obtain protection for such brands as are honorably theirs. This is a movement in a much needed direction. There are no present trade mark laws, which are even reasonably effected, the protection depending now upon old common law rights, which compels the manufacturer to go back into the ~~bill~~ ^{law} passed to prove just when he first used a brand, a matter which it is quite difficult to do after it has been used many years and there being no possible record of it.

May we not hope that this bill will so commend itself to your notice as to receive your support.

Very respectfully yours,

CWS=K.

Washington, D.C.

Dear Sir;-

We take the liberty of addressing you on the subject of House Bill No. 16,560 which is known as the "Bonyng Bill" and which provides for a new Trade Mark Law, and if you can consistently support this Bill and lend your influence to its passage we believe you will be doing a benefit to the various Manufacturing Industries in the Country, who by virtue of their efforts have been able to establish a mark or a design which means more or less to them in the way of a designating specialty, and if the work of registering these marks may be simplified and if the traders have their rights protected or made more definite, we believe that it is only fair and right that the powers that be should take this step.

We want to thank you for any efforts you may make along this line, and beg to remain.

Yours very truly,

C/B

Dear Sir:

I wish that if the subject of the improvement of our general laws governing the protection of "Trade-marks" comes before Congress, this session, that you would interest yourself in any measure that tends to the upholding and protecting of these Trade-marks, or, in other words, of a man's "Commercial signature", as they may be termed. As you know, there are a lot of irresponsible harpies who are constantly trespassing with fraudulent intent, upon the vested property of numerous commercial houses, firms or corporations, and, as upon conviction of the thief, the sufferer finds it impossible to collect any adequate measure of damages to atone for the willful trespass upon these property rights, a law should be enacted, which would carry some measure of imprisonment to the person who, with malice aforethought, demoralizes the general business of another person, through the prosecution and utterance of this fraud or imitation of well-known articles of commerce. We understand that House Bill No. 16,560, known as the "Bonynges Bill", is a decided improvement upon the present laws.

Respectfully yours,

Richard V. Mattison

Answering Yours of _____

My dear Senator Dryden,

I write to call your attention to the "Bonyng Trade Mark Bill", No. 16,560, as a very desirable measure to be acted upon favorably by this Congress. This Bill is the result of several years co-operative work on the part of the Patent Committee of the National Association of Manufacturers, and various Bar Associations, etc. It provides for the registration of Trade Marks in Inter-state as well as foreign commerce, and contains other important provisions for the protection of American Manufacturers.

Hoping that, as far as your judgment allows, you will do all you can for this Bill, I am
